The Forensic Assessment Center Network (FACN) is a joint project of the Texas Department of Family and Protective Services and The University of Texas Health Science Center-Houston. The FACN provides 24-hour support for DFPS staff via a statewide toll free number and a web-based system. FACN physicians also provide ongoing education to DFPS workers about medical aspects of maltreatment and ...

Forensic Assessment Center Network

A frog is any member of a diverse and largely carnivorous group of short-bodied, tailless amphibians composing the order Anura (literally without tail in Ancient Greek). The oldest fossil "proto-frog" appeared in the early Triassic of Madagascar, but molecular clock dating suggests their origins may extend further back to the Permian, 265 million years ago.. Frogs are widely distributed ...

Frog - Wikipedia

Equine anatomy refers to the gross and microscopic anatomy of horses and other equids, including donkeys, and zebras. While all anatomical features of equids are described in the same terms as for other animals by the International Committee on Veterinary Gross Anatomical Nomenclature in the book Nomina Anatomica Veterinaria, there are many horse-specific colloquial terms used by equestrians
