A critical factor for energy democracy is the development model through which these technologies are deployed. The energy democracy movement recognizes that the choice of different scales of deployment, from the largest megaprojects to the smallest community solar project, potentially lead to very different renewable energy futures. The development of the transmission grid is further viewed as ...

1. Equal access to health care for im/migrants. Access to prevention and treatment should be “in proportion to need without discrimination” (); yet, as evidenced by the Affordable Care Act of 2010, the current system continues to exclude many immigrants, often based on assumptions of deservingness. The Affordable Care Act has expanded health insurance and access to many immigrants.

Smart growth is an urban planning and transportation theory that concentrates growth in compact walkable urban centers to avoid sprawl. It also advocates compact, transit-oriented, walkable, bicycle-friendly land use, including neighborhood schools, complete streets, and mixed-use development with a range of housing choices. The term "smart growth" is particularly used in North America.

Smart growth - Wikipedia
