Evolution Test Biology Questions And

MAJOR FIELD TEST IN BIOLOGY SAMPLE QUESTIONS. The following questions illustrate the range of the test in terms of the abilities measured, the disciplines covered, and the

Major Field Test in Biology Sample Questions - ETS Home

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.

Introduction to Evolutionary Biology - TalkOrigins Archive

The Student's t-test is a statistical test that compares the mean and standard deviation of two samples to see if there is a significant difference between them. In an experiment, a t-test might be used to calculate whether or not differences seen between the control and each experimental group are a factor of the manipulated variable or simply the result of chance.
