Kain, When you say Ehrenberg's rules don't apply so much in automotive, their work on defections from car brands follows DJ pretty well. That's not to say talking to previous customers has no value, on the contrary, you know them and they know you but defection does happen for reasons within and outside our control, so sales volume maintenance has to include gaining new customers just to ...

Sir Ronald Aylmer Fisher FRS (17 February 1890 – 29 July 1962) was a British statistician and geneticist. For his work in statistics, he has been described as "a genius who almost single-handedly created the foundations for modern statistical science" and "the single most important figure in 20th century statistics". In genetics, his work used mathematics to combine Mendelian genetics and ...
