Sociological theory vs. social theory. Kenneth Allan proposed the distinction between sociological theory and social theory. In Allan's usage, sociological theory consists of abstract and testable propositions about society. It often heavily relies on the scientific method, which aims for objectivity, and attempts to avoid passing value judgments. In contrast, social theory, according to Allan ...

Overview. The use of manipulatives in teaching mathematics has a long tradition and solid research history. Manipulatives not only allow students to construct their own cognitive models for abstract mathematical ideas and processes, they also provide a common language with which to communicate these models to the teacher and other students.
