Welcome to Chemistry Matters - a new digital series for high school chemistry from Georgia Public Broadcasting! The series is comprised of 12 units of study divided into segments. Under each segment you will find support materials designed to enhance student understanding of the content.

Chemistry Matters | Georgia Public Broadcasting

We're now posting original research! Yes, as of late November we are hosting our own original study titled An Examination of the Effect of Prior Experience, Age, and Gender in Non-Food Blending Predictions. Though this title sounds pretty scientific, it just refers to an experiment I did with putting rubber balls in a blender to see...

Please note that this site was retired on August 11th, 2017 as part of a continuous effort to provide you with the most relevant and up to date content. Please contact your sales representative or click here to discuss alternative solutions that best fit your needs.. The McGraw-Hill My Math Self-Check Quizzes are being updated and will be available in early 2018.

Glencoe/McGraw-Hill

A simulation is an approximate imitation of the operation of a process or system; the act of simulating first requires a model is developed. This model is a well-defined description of the simulated subject, and represents its key characteristics, such as its behaviour, functions and abstract or physical properties.
