1. Introduction. The US National Environmental Policy Act (NEPA) not only initiated the development of EIA, but at the same time embedded in the process of EIA the concept of public participation (Petts, 2003). At several international conferences following the introduction of EIA, the importance of public participation for environmental decision-making has been formally recognised.

Public participation in environmental impact assessment ...

Environmental governance is a concept in political ecology and environmental policy that advocates sustainability (sustainable development) as the supreme consideration for managing all human activities—political, social and economic. Governance includes government, business and civil society, and emphasizes whole system management. To capture this diverse range of elements, environmental ...

Environmental governance - Wikipedia

The dependent variables were drawn from two sets of questions. While this study only reports information from respondents in the United States, an 11-point scale was used to facilitate international implementation of the survey (Calantone et al., 1996). The first set of 10 questions asked the respondents to assess the impact of environmental activities on various dimensions of the firm (0 ...
