Abstract. Project financial management goes well beyond simply planning, capturing, and managing costs on individual projects. It must also address the customer's need to maintain a balance between the project investment and the expected benefits or returns associated with that project, the potential impact on other projects in the portfolio, and the overall impact on their business results.

I am trying to create a simple Gantt chart that shows project milestones and durations. Using NETWORKDAYS does not compute the correct time for duration, since it skips some calendar days. However, if I simply subtract Start Date From End Date, I get 0 for tasks that only take one day (they begin and end on the same day). That method works correctly for all other days.
