Occupational science is a discipline in the social and behavioral sciences dedicated to the study of

humans as "doers" or "occupational beings". As used here, the term "occupation" refers to the goal-directed activities that characterize daily human life as well as the characteristics and patterns of purposeful activity that occur over lifetimes as these affect health and well-being.

Education in the United States is provided in public, private, and home schools.. State governments set overall educational standards, often mandate standardized tests for K-12 public school systems and supervise, usually through a board of regents, state colleges, and universities. The bulk of the \$1.3 trillion in funding comes from state and local governments, with federal funding ...
