Kristy. Hi Abby! Thanks for the article! I appreciate that you dig into the research and then translate it into everyday language ☺☺ I actually have had the IgG test done and the ND explained that when lots of foods are flagged it means there's something wrong with the gut, namely leaky gut, NOT that the person is permanently intolerant to all of those foods.

Food Sensitivity Tests: Are They Science or Hoax?

The term "water solubility" refers to a compound's ability to dissolve into water at a specific temperature. The term bioavailability refers to the amount of active ingredient (AI) in the compound which makes it into the bloodstream.

CBD Bioavailability & Water Soluble CBD: Exploring The ...

This study reviews recently published scientific literature on the use of robotics in schools, in order to: (a) identify the potential contribution of the incorporation of robotics as educational tool in schools, (b) present a synthesis of the available empirical evidence on the educational effectiveness of robotics as an educational tool in schools, and (c) define future research perspectives ...

In a kind of spooky experiment, scientists at the Max Planck Institute for Human Cognitive and Brain Sciences reveal that our decisions are made seconds before we become aware of them. In the study, participants could freely decide if they wanted to press a button with their right or left hand. The only condition was that they had to remember when they made the decision to either use their ...
