Economics (/ ɛ k ə ' n ɒ m i k s, iː k ə -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

What Are Legal Economics? Law and economics, or "economic analysis of the law," is the application of economic principles to analyze the effects of various laws on the individual and society at large. In other words, economic concepts (like scarcity of resources, supply, demand, market efficiency, and bargaining power) are used to explain the purpose and effects of various laws, to assess which ...

Historically, the Army managed its finances around the Planning, Programming, Budgeting, and Execution processes with little emphasis on cost management; hence the "budget culture" paradigm that existed for many years. With the implementation of Army Enterprise Resource and Planning (ERP) Systems, including the General Funds Enterprise Business System (GFEBS), Army resource and operational ...

Increases in the federal funds rate aimed at stabilizing the economy have inevitably been followed by recessions. Recently, peaks in the federal funds rate have occurred 6–16 months before the start of recessions; reductions in interest rates apparently occurred too late to prevent those recessions.

Objectives are the goals of government policy; Instruments are the means by which these aims might be achieved; For example, the government might want to achieve an objective of a low rate of price inflation. The main instrument to achieve this are changes in monetary policy interest rates, since 1997 they have been set by the Bank of England.
