1 There are many questions in life. Some are answered after little research; however, some go unanswered for many years, possibly forever. The way scientists search for the answers to their questions is through the science process skill called experimenting. 2 When you experiment in your science class, you may think you are just "doing something to see what happens."

The Scientific Method - The basic scientific method includes the steps scientists use and follow when trying to solve a problem or prove or disprove a theory. The methods are used by scientists all over the world. This is done so scientists can work together to solve some of the same problems. There are usually five steps which are a part of the scientific method.
