Currency Swap is an agreement between two parties of two countries for exchanging of principal and interest of loan at its present value. This swap is very useful for controlling foreign exchange risk. Interest rate swap is different from currency swap, because in interest rate swap, we just exchange the interest from fixed to floating rates but in currency swap, we both principle and interest ...

A financial crisis is any of a broad variety of situations in which some financial assets suddenly lose a large part of their nominal value. In the 19th and early 20th centuries, many financial crises were associated with banking panics, and many recessions coincided with these panics. Other situations that are often called financial crises include stock market crashes and the bursting of ...

Fundamentals of Materials Science and Engineering, 5th Edition . By William D. Callister, Jr., and David G. Rethwisch . Fundamentals of Materials Science and Engineering takes an integrated approach in that one specific structure, characteristic, or property type is covered in turn for all three basic material types: metals, ceramics, and polymeric materials.

Fundamentals of Materials Science and Engineering, 5th ...

Overview. A feasibility study aims to objectively and rationally uncover the strengths and weaknesses of an existing business or proposed venture, opportunities and threats present in the natural environment, the resources required to carry through, and ultimately the prospects for success. In its simplest terms, the two criteria to judge feasibility are cost required and value to be attained.
