The cost method is a type of accounting used for investments, where the investor holds little to no influence over the investee. Unlike the consolidation method, the terminology of “parent” and “subsidiary” are not used since the investor does not exert full control. Instead, the term “investment” is simply used

Cost Method - Guide to Accounting for Investments, Examples

The weighted average cost (WAC) method of inventory valuation uses a weighted average to determine the amount that goes into COGS and inventory. The weighted average cost method divides the cost of goods available for sale by the number of units available for sale. The WAC method is permitted under both GAAP and IFRS.
