(This post contains affiliate links.) Exploring the sense of sound is always a hit with my two kids. Previously we've explored sound using a wire clothes hanger and gone on a sound walk. Today we'll be exploring the sense of sound with our own homemade kazoo from a cardboard tube, a really fun STEM / STEAM activity for kids of all ages.. Be sure to check out these other science activities!

Computer science is the study of processes that interact with data and that can be represented as data in the form of programs. It enables the use of algorithms to manipulate, store, and communicate digital information. A computer scientist studies the theory of computation and the practice of designing software systems.. Its fields can be divided into theoretical and practical disciplines.

(Note: this is far from the only way an LSTM can learn to count, and I'm anthropomorphizing quite a bit here. But I think viewing the network's behavior is interesting and can help build better models – after all, many of the ideas in neural networks come from analogies to the human brain, and if we see unexpected behavior, we may be able to design more efficient learning mechanisms.)
