The oldest known sundial is from Egypt; it dates back to around 1500 BC (19th Dynasty), and was discovered in the Valley of the Kings in 2013. Sundials have their origin in shadow clocks, which were the first devices used for measuring the parts of a day. Ancient Egyptian obelisks, constructed about 3500 BC, are also among the earliest shadow clocks.

skill: An ability and capacity acquired through deliberate, systematic, and sustained effort to smoothly and adaptively carryout complex activities or job functions involving ideas (cognitive skills), things (technical skills), and/or people (interpersonal skills). See also competence.

What is skill? definition and meaning - BusinessDictionary.com

User experience signals were HUGE this year. And I expect them to be an even more important SEO trend in 2019. In fact, Google previously announced that RankBrain was their third most important ranking factor: "In the few months it has been deployed, RankBrain has become the third-most important signal contributing to the result of a search query."
