In Figure 1, it is first shown that there is a fundamental separation between God and his creation including people. God is above people and nature and both people and elements of nature such as plants and animals must interact and live together within the same created world governed by God's ways and plans.

Environmental Ethics. The field of environmental ethics concerns human beings' ethical relationship with the natural environment. While numerous philosophers have written on this topic throughout history, environmental ethics only developed into a specific philosophical discipline in the 1970s. This emergence was no doubt due to the increasing awareness in the 1960s of the effects that ...
