There are many alleged reasons for the sudden halt to the Moon missions. While officially, a drastic cut in budget was offered to the public for the sudden pulling of further missions of perhaps the greatest achievement in American history, many believed there were other reasons. Some would claim the missions were still happening, only in secret.

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.

Evolution - Wikipedia

What Is English Literature? English literature is the study of literature written in the English language. The writers do not necessarily have to be from England but can be from all over the world.

The evolution of the peppered moth is an evolutionary instance of directional colour change in the moth population as a consequence of air pollution during the Industrial Revolution. The frequency of dark-coloured moths increased at that time, an example of industrial melanism. Later, when pollution was reduced, the light-coloured form again predominated.

Peppered moth evolution - Wikipedia

Did humans evolve from apes? Artists' impressions of Homo erectus have most often depicted some really primitive, subhuman 'ape-man'. However, the evidence that these were people (that should even share our species name) is mounting.
