3. Dimension 1 SCIENTIFIC AND ENGINEERING PRACTICES. From its inception, one of the principal goals of science education has been to cultivate students' scientific habits of mind, develop their capability to engage in scientific inquiry, and teach them how to reason in a scientific context [1, 2]. There has always been a tension, however, between the emphasis that should be placed on ...

3 Dimension 1: Scientific and Engineering Practices | A ...

Whereas GLMMs themselves are uncontroversial, describing how to use them to analyze data necessarily touches on controversial statistical issues such as the debate over null hypothesis testing , the validity of stepwise regression and the use of Bayesian statistics . Others have thoroughly discussed these topics (e.g. 17, 18, 19); we acknowledge the difficulty while remaining agnostic.

How to Read a Landscape. During Fall 2008, members of the History / Geography 932 "Topics in American Environmental History" graduate seminar at the University of Wisconsin-Madison embarked on the rather quixotic project of building an extensive set of web resources offering guidance to anyone interested in learning how to perform original research in environmental history no matter what their ...
