The failure of the Luftwaffe to progress further towards attaining a strategic bombing force was attributable to several reasons. Many in the Luftwaffe command believed medium bombers to be sufficient power to launch strategic bombing operations against Germany's most likely enemies; France, Czechoslovakia, and Poland. The United Kingdom presented greater problems.

Joseph Orlicky, author of the definitive Material Requirements Planning (MRP): The New Way of Life in Production and Inventory Management, said, "Never forecast what you can calculate." Nowhere is this rule more evident than in the manufacturing industry, where determining the right amount of raw material for current demand is a challenge.
