3. Is culture the result of evolution? A society's culture consists of its accumulated learned behavior. Human culture is based at least partly on social living and language, although the ability ...

### **Evolution: Frequently Asked Questions - PBS**

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.

According to the documentary short Evolution vs. God, Darwinism is a leap of faith that falls far short of Creationism in explaining the mysteries of our existence. The film, which could have presented a fascinating open debate on a crucial subject, quickly devolves into a shallow-minded "gotcha" exercise.. Throughout the course of the film, we're given flashes of rapidly edited interview ...

Irreducible complexity (IC) involves the idea that certain biological systems cannot evolve by successive small modifications to pre-existing functional systems through natural selection. Irreducible complexity has become central to the creationist concept of intelligent design, but the scientific community, which regards intelligent design as pseudoscience, rejects the concept of irreducible ...
