A pinch is the compression of an electrically conducting filament by magnetic forces. The conductor is usually a plasma, but could also be a solid or liquid metal. Pinches were the first type of device used for controlled nuclear fusion.. The phenomenon may also be referred to as a Bennett pinch (after Willard Harrison Bennett), electromagnetic pinch, magnetic pinch, pinch effect or plasma pinch.

Discourse analysis offers a powerful toolbox for analysing political communication, but it also has its pitfalls. Aside from being very work-intensive, the idea that you only need to follow a certain number of steps to get your results can be misleading. A methodology is always only as good as your question. If your question does not lend itself to this sort of analysis, or if many of the steps I ...
