Facebook Graph Search was a semantic search engine that was introduced by Facebook in March 2013. It was designed to give answers to user natural language queries rather than a list of links. The Graph Search feature combined the big data acquired from its over one billion users and external data into a search engine providing user-specific search results.

Hi Pearl, yes you'll have to create an app on your Facebook page that can direct people to your website. The easiest way that I'm aware of would be to create a static image of your logo/site URL and perhaps the text 'visit our site' or similar, then when people click on the image it directs them to your website.
