Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Futuyma: No, certainly not. There cannot be evolution without genetic variation in the first place. So there must be mutation and often recombination to generate the different genotypes or the different versions of the genes, known as alleles, which then may or may not make a difference in the ability of an organism to survive and reproduce.
