Basic Math Facts How does Everyday Mathematics address basic facts? When should students be expected to know their facts? Helping children learn the basic facts is an important goal in the Everyday Mathematics curriculum. Most children should have developed an automatic recall of the basic addition and subtraction facts by the end of the second grade.

This year, I've had such lovely opportunities to move beyond my own hills and talk about math, teaching, West Virginia, public education. Last spring, The Biden Foundation reached out for a blog post from a WV teacher.. This fall, I sat at the unbelievably large NCTM table, beginning the planning process to celebrate 100 years of an organization dedicated to improving math teaching.

I appreciate Christopher Danielson's post on common numerator fraction division because it's important to examine how various algorithms work and how we can help our students become more flexible with their thinking. It's not surprising that I teach fraction division using rectangles, and I really believe the kids seem to grasp it better because it's visual.
