When describing competences, two main aspects are important: Core concept and structured content. Core concept: The e-CF describes competences upon the basic definition that competence is the "demonstrated ability to apply knowledge, skills and attitudes to achieve observable results". This basic definition agreed by an expert group defines competence from a workplace perspective, and it ...

Intelligent design (ID) is a pseudoscientific argument for the existence of God, presented by its proponents as "an evidence-based scientific theory about life's origins". Proponents claim that "certain features of the universe and of living things are best explained by an intelligent cause, not an undirected process such as natural selection." ID is a form of creationism that lacks empirical ...

Intelligent design - Wikipedia

Sexual selection in humans concerns the concept of sexual selection, introduced by Charles Darwin as an element of his theory of natural selection, as it affects humans. The role of sexual selection in human evolution has not been firmly established although neoteny has been cited as being caused by human sexual selection. It has been suggested that sexual selection played a part in the ...

Competency approach to job depends on competency mapping. Competency Mapping is a process to identify key competencies for an organization and/or a job and incorporating those competencies throughout the various processes (i.e. job evaluation, training, recruitment) of the organization. A competency is defined as a behavior (i.e. communication, leadership) rather than a skill or ability.

10 Why Is The Alphabet In That Order?. For all the time we spend teaching kindergartners the order of the alphabet, we don't actually know what the order is for. Sure, we've made a cute song out of it, and we use it to sort things—but nobody actually knows why we started putting the letters of the alphabet in that order in the first place.
