This chapter reviews major theories of intelligence. The theories are grouped into four major theory types: (1) psychometric theories; (2) cognitive theories; (3) cognitive-contextual theories; and (4) biological theories. Psychometric theories derive from studying individual differences in test performance on cognitive tests. Questions about the structure of human intelligence, including the ...

1. Introduction. The increasing significance of shale gas plays has lead to the need for deeper understanding of shale behaviour. Shale gas has been produced for many years in the U.S.A. and forms around 8% of total natural gas production (Warlick, 2006). Gas shales in the USA are predicted to become the source of 45% of all gas production by 2035, especially considering that other fossil ...
