Danger and especially dangerous creatures fascinate us. The subject has appeared on more than one occasion on Listverse for this reason. Today's list is a little different than the others though in that it examines ten different criteria for what makes an animal deadly. Many more criteria are still out there. Feel free to add other deadly creatures to the comments.

The beehive fence not only keeps elephants away from the farms, but has positive economic benefits for the farmers too. Dr. King explains the benefits that the bees provide the farmers: "The beehive fence is therefore reducing crop-raids into the farms, allowing an increase in crop yield from each of the farms, increased pollination of the crops from the presence of more bee pollinators AND ...
