But even a cursory look at Sullivan's own architecture reveals some of the greatest ornamentation in American architecture. That observation lends weight to a counterargument: that there are multiple ways of meeting the same function (getting people from the first floor to the second; bringing light into a room; making a hinge). Once one of those pathways has been selected, aesthetic ...

The study of language, linguistics, has been developing into a science since the first grammatical descriptions of particular languages in India more than 2000 years ago, after the development of the Brahmi script. Modern linguistics is a science that concerns itself with all aspects of language, examining it from all of the theoretical viewpoints described above.
