In accounting, the Inventory turnover is a measure of the number of times inventory is sold or used in a time period such as a year. It is calculated to see if a business has an excessive inventory in comparison to its sales level. The equation for inventory turnover equals the cost of goods sold divided by the average inventory. Inventory turnover is also known as inventory turns, merchandise ...

Inventory turnover - Wikipedia

Importance of Study Accounting. Importance of Study Accounting Everyone should be required to study accounting because accounting is very essential for our daily life. There are many importance of study accounting. Asking an accountant why accounting information is important is similar as asking why fish need to live in water. This is because accounting is the backbone of financial world.
