Country analysis, industry analysis - Market risk assessment

Economics (/ ɛ k ə ' n ɒ m i k s, i: k ə -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Economics - Wikipedia

A global city, also called world city or sometimes alpha city or world center, is a city which is a primary node in the global economic network. The concept comes from geography and urban studies, and the idea that globalization is created, facilitated, and enacted in strategic geographic locales according to a hierarchy of importance to the operation of the global system of finance and trade.

Global city - Wikipedia

Years of building pressure in many parts of the world, at least since the global financial crisis, 1 crystallized into dramatic political results during 2016 as public disaffection with the status quo gained traction. In the West, consensus expectations were defied by the United Kingdom's decision to leave the European Union, by President-elect Donald Trump's victory in the United States ...
