Vulnerability . If you carefully read the information on this webpage, you will learn that, although

the fear of flying isn't really about the risks inherent in aviation, it is based in the uncomfortable awareness that life is fragile and vulnerable, and that none of us—much like the man in the fictitious opening story—has any real control over it, whether in the air or on the ground.

Fear of Flying: Symptoms, Medical Issues, and Treatment

The Quadratic Formula What is a quadratic equation? The quadratic formula is used to solve a very specific type of equation, called a quadratic equation. These equations are usually written in the following form, where A, B, and C are constants and x represents an unknown.
