Procedure . Teacher Component. In any study of "the Universe", the subject of galaxies normally will be covered by the teacher. If the teacher decides to go into more detail, and to present the idea of different types of galaxies that exist in the universe, this activity would be an excellent follow-up to an initial teacher introduction.

Galaxy Classification. Galaxies show a vast range of forms, and faced with any such situation we would like to seek any underlying patterns. This allows a compact description of individual objects, and if we are fortunate will lead to physical understanding (the prototype system of this kind is the MK stellar classification).
