Content analysis is a research method for studying documents and communication artifacts, which might be texts of various formats, pictures, audio or video. Social scientists use content analysis to examine patterns in communication in a replicable and systematic manner. One of the key advantages of using content analysis to analyse social phenomena is its non-invasive nature, in contrast to ...

In terms of epistemology, qualitative content analysis can be applicable whether knowledge is believed to be innate, acquired, or socially constructed (Lincoln and Guba, 1985). Qualitative content analysis comprises descriptions of the manifest content, close to the text, as well as interpretations of the latent content, distant from the text but still close to the participants' lived experiences.

Methodological challenges in qualitative content analysis ...

Diffusion of innovations is a theory that seeks to explain how, why, and at what rate new ideas and technology spread. Everett Rogers, a professor of communication studies, popularized the theory in his book Diffusion of Innovations; the book was first published in 1962, and is now in its fifth edition (2003). Rogers argues that diffusion is the process by which an innovation is communicated ...
