Enterprise mobility management (EMM) is the set of people, processes and technology focused on managing mobile devices, wireless networks, and other mobile computing services in a business context. As more workers have bought smartphone and tablet computing devices and have sought support for using these devices in the workplace, EMM has become increasingly significant.

Enterprise mobility management - Wikipedia

If anyone asked me, should I use Enterprise Fleet Management for my business, I would enthusiastically tell them, yes. Since we have partnered with Enterprise, I don't give fleet management a thought. It's a little like breathing air at this point, it's just taken care of and we can now focus on building buildings.
