1. Introduction. The investigation and management of abnormal uterine bleeding (AUB) among nongravid women of reproductive age has been hampered both by confusing and inconsistently applied nomenclature and by the lack of standardized methods for investigation and categorization of the various potential etiologies . These deficiencies hamper the ability of investigators to study homogenous ...

Charles Darwin first expressed his ideas on sexual selection and mate choice in his book *The Descent of Man, and Selection in Relation to Sex* in 1871. He was perplexed by the elaborate ornamentation that males of some species have, because such features appeared to be detrimental to survival and to have negative consequences for reproductive success.

Mate choice - Wikipedia

These results are absolutely not supportive of the proposition that vegetarianism protects against either heart disease or all-cause mortalities. In fact, they indicate that vegetarianism is more dangerous for women than for men. The claim that vegetarians have lower rates of cancer compared to nonvegetarians has been squarely contradicted by a 1994 study comparing vegetarians with the general ...
