Algebraic geometry is a branch of mathematics, classically studying zeros of multivariate polynomials. Modern algebraic geometry is based on the use of abstract algebraic techniques, mainly from commutative algebra, for solving geometrical problems about these sets of zeros.. The fundamental objects of study in algebraic geometry are algebraic varieties, which are geometric manifestations of ...

The Select tool specifies what entities you want to modify with SketchUp's other tools or commands. If you want to change the length of a line, first select the line. If you want to scale a box, first select that box. If you want to move a line and a box, you start by selecting both, creating what's called a selection set. Here's where you find the Select tool in SketchUp:
