198 CHAPTER 7 Forces Shaping Earth. Rock Clues Another clue to what's inside Earth comes in the form of certain rocks found in different places on Earth's surface. These rocks are made of material similar to what is thought to exist deep inside Earth. The rocks formed far below the surface.

### **Chapter 7: Forces Shaping Earth - Don Voorhees**

The constant movement of Earth's plates creates forces that affect Earth's surface at the boundaries of the plates. Plate boundaries are the places where the edges of different plates meet. Forces cause mountains to form at some plate boundaries. Huge rift valleys with active volcanoes form at other plate boundaries.
