A financial ratio or accounting ratio is a relative magnitude of two selected numerical values taken from an enterprise's financial statements. Often used in accounting, there are many standard ratios used to try to evaluate the overall financial condition of a corporation or other organization. Financial ratios may be used by managers within a firm, by current and potential shareholders ...

In finance, a haircut is the difference between the market value of an asset used as loan collateral and the value ascribed to that asset when used as collateral for that loan (i.e. an ascribed (nominal) reduction to the value of that asset, when it is used as collateral). The amount of the haircut reflects the perceived risk of the asset falling in value or being sold in a fire sale; the ...

We examine the association between employee quality and financial reporting outcomes. Using the average workforce education level in MSA(s) where the firm operates as a proxy for employee quality, we find that firms with a high-quality workforce exhibit higher accruals quality, fewer internal control violations, and fewer restatements.
