Consider the trophic transfer efficiency of the Puget Sound orca food chain. Each of the species described below is the dominant species in their trophic level so understanding energy transfers among these four species goes a long way toward understanding energy transfers in the whole ecosystem.

IBDP Biology SL/HL

Ecology 4.2- Energy Flow Essential idea: • Ecosystems require a continuous supply of energy to fuel life processes and to replace energy lost as heat. Nature of science: • Use theories to explain natural phenomena –the concept of energy flow explains the limited length of food chains. (2.2) International-mindedness:
