Use your knowledge of 30-60-90 and 45-45-90 triangles to solve some problems.

Special right triangles (practice) | Khan Academy

In geometry, special right triangles are great to work with because the ratio of their sides will always be the same, making calculations easier. The two special triangles you need to know are the isosceles (or 45-45-90) and 30-60-90 right triangles. You can use your knowledge of special right triangles to answer the following questions.
