An introduction to Mendelian genetics using Simpsons examples. UPDATE: Errors fixed. Thanks for letting me know. Our SoW uses punnet 'diamonds' so you may need to adjust this. Known issue is that some examples use similar letter forms (i.e. Ss not Ee). Comments on relevant characteristics with diverse letter forms very welcome.

Internet Lessons Note For Teachers: Please take time to preview the links on any Internet assignment before you use it with your students. With the ever-changing nature of the Internet, links may become broken or websites are no longer available. If you find a problem, please send me an e-mail. • The Organ Trail - Challenge your students to create a "Wanted" poster about an organ.

Biology Lesson Plans - The Science Spot

This lab uses the glenco simulator, Virtual Lab: Population Biology to collect data on two populations of paramecium, P. caudatum and P. aurelia.. Though the simulator doesn't expressly say it, the activity illustrates the competitive exclusion principle by showing students how each population behaves when grown alone or when mixed together.

Study the core scientific principles, theories, and processes that govern living organisms and biological systems. You'll do hands-on laboratory work to investigate natural phenomena.

AP Biology - AP Students - College Board

The animal cell coloring worksheet has been used with freshman biology for years as a supplemental way to learn the parts of the cell. This is often assigned as a review or reinforcement exercise. Intro biology classes have unique challenges for me, one of which being that they don't have a textbook.

IB Biology

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.
