Once you get good at factoring quadratics with $1x$ squared in the front of the expression, it's time to try ones with numbers other than 1. It will be the same general idea, but there are a few ...

Factoring Quadratic Equations: Polynomial Problems with a ...

First, I note that they've given me a binomial (a two-term polynomial) and that the power on the x in the first term is 3 so, even if I weren't working in the "sums and differences of cubes" section of my textbook, I'd be on notice that maybe I should be thinking in terms of those formulas.. Looking at the other variable, I note that a power of 6 is the cube of a power of 2, so the other ...

Biodiversity is important, more than just the 'I want my children to enjoy it' reason. For example, the richness of diversity allows medicines and foods to be naturally available. The natural disaster prevention mechanisms in most ecosystems and other free services we all get from the surrounding environment are not easily replaceable or replicable, so maintaining biodiversity is important.

Why Is Biodiversity Important? Who Cares? — Global Issues

In *Scaling Up Excellence*, bestselling author, Robert Sutton and Stanford colleague, Huggy Rao Sutton offer a comprehensive guide to management in a package of enticing stories, subtly supported by references to high-end research.
