Frog Dissection Lab 2013. Quarter 3 Lab Assessment . Background Information . Frogs are classified as amphibians or "animals that live a double life." The name is appropriate because amphibians spend their immature lives in water and their adult lives primarily on land. Tadpoles, or young frogs, are entirely aquatic.

Frog Dissection Lab 2013 Quarter 3 Lab Assessment

Best Answer: A hypothesis is a statement of what you expect to find as a result of your experiment. That is, whenever you perform an experiment, you have to have some idea as to what you are trying to show or prove as a result. Merely dissecting a frog wouldn't be considered an experiment, unless you're comparing one type of dissection over another type.

I need a hypothesis for my frog dissection lab report ...

Students who cannot perform the actual frog dissection can use this alternative to learn the parts of the frog and receive credit for the dissection. Keep in mind, there is no substitute for actually viewing the real structures on the frog and having the real experience of dissection.

Frog Lab - Alternative to Dissection - The Biology Corner

The pros about the virtual dissection is that you're not killing the animals that you are dissecting and there is much of a mess you have to clean. Virtual Dissection probably makes pro-animal people happy because we are not hurting the animals. It shows you specific instructions
