Regarding the sociodemographic variables, most research indicates a prevalence rate of school refusal of about 5% (Sewell, 2008), in spite of the fact that it can reach 28 and 35% due to the causal heterogeneity that can include the behavior of school refusal considered as an inclusive construct (Mihalas, 2014). Moments that involve a change for the student, for example, the start of the ...

The answer isn't as straightforward as you might think. There is no single, widely accepted definition of a rural community. Different surveys, agencies, policies, and programs classify areas as rural based on a range of characteristics, such as population size, population density, household density, resident interpretations, and the presence of (or distance from) metropolitan areas.

Missed Opportunities: Youth Homelessness in Rural America
