A swap is a derivative in which two counterparties exchange cash flows of one party's financial instrument for those of the other party's financial instrument. The benefits in question depend on the type of financial instruments involved. For example, in the case of a swap involving two bonds, the benefits in question can be the periodic interest payments associated with such bonds.

Swap (finance) - Wikipedia

* Designed for those who want to accelerate their career into general management or move beyond their technical or functional specialism. ** All fees currently quoted exclude the new mandatory 5% tax (VAT) that is applicable in the United Arab Emirates (UAE) from 1 January 2018 on the consumption or use of goods and services within the UAE.
