Introduction. In previous methodology articles I have outlined the theory behind Content and Language Integrated Learning (CLIL) and provided a framework for CLIL-type lessons, particularly suited to learners studying content-based subjects in English or as part of a bilingual education programme. Here I provide a specific example of a topic covered in a CLIL style.

Information is the resolution of uncertainty; it is that which answers the question of "what an entity is" and thus defines both its essence and nature of its characteristics. Information relates to both data and knowledge, as data is meaningful information representing values attributed to parameters, and knowledge signifies understanding of a concept.
