Survey Questions. The survey asked questions of the twins’ zygosity, upbringing, and gender transition, for example, what was the age at which the first definite feelings were felt that “instead of being in the gender you were raised you should have been of the other gender?” and “at what age did the actual transition occur?”

Background. Type 2 Diabetes mellitus (T2DM) is a metabolic disorder characterized by the presence of chronic hyperglycemia, which results from resistance to insulin actions on peripheral tissues as well as inadequate secretion of insulin 1 and an impaired suppression of glucagon secretion in response to ingested glucose. Thus, T2DM involves at least two primary pathogenic mechanisms: (a) a ...
