2 Asymptotic Solution to diffusion-reaction problems For a single non-linear reaction problem, a solution can be obtained analytically for large values of Thiele modulus. This asymptotic solution can then be used to define a generalized Thiele modulus and can be extended to obtain approximate analytical solutions even for low Thiele modulus. This

Stoichiometry. We shall set up Stoichiometric Tables using A as our basis of calculation in the following reaction. We will use the stoichiometric tables to express the concentration as a function of conversion. We will combine $C_i = f(X)$ with the appropriate rate law to obtain $-r_A = f(X)$. Topics
