(This post contains affiliate links.) Exploring the sense of sound is always a hit with my two kids. Previously we've explored sound using a wire clothes hanger and gone on a sound walk. Today we'll be exploring the sense of sound with our own homemade kazoo from a cardboard tube, a really fun STEM / STEAM activity for kids of all ages.. Be sure to check out these other science activities!

### **Exploring Sound: Making a Kazoo - Buggy and Buddy**

This unit introduces an extremely simple exercise that allows students to think more deeply about the concept of a threshold and how to use it to make a robot react to its environment.

### **Exploring thresholds - LEGO Engineering**

This study reviews recently published scientific literature on the use of robotics in schools, in order to: (a) identify the potential contribution of the incorporation of robotics as educational tool in schools, (b) present a synthesis of the available empirical evidence on the educational effectiveness of robotics as an educational tool in schools, and (c) define future research perspectives ...

How to make rosin. Unlike the methods of extraction which rely on the use of highly combustible and overtly dangerous solvents (butane, as in BHO or butane hash oil, or propane), professional rosin creation doesn't involve anything other than a machine press which heats up the hash to a very moderate temperature.
